

NPDES FORM 6100-28		UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, DC 20460 ANNUAL REPORT FOR STORMWATER DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITY UNDER THE NPDES MULTI-SECTOR GENERAL PERMIT	FORM Approved OMB No. 2040-0004
--------------------------	---	---	---------------------------------------

Permit Information

Report Year: 2018

Reporting Period: 1/1/2018 to 12/31/2018

NPDES ID: NHR053159

Facility Information

Facility Name: NYLON CORPORATION OF AMERICA

Facility Point of Contact

First NameMiddle InitialLast Name: JAMESBIZARRO

Phone: 603-627-5150Ext.:

Email: JBIZARRO@NYCOA.COM

Facility Mailing Address

Address Line 1: 333 SUNDIAL AVENUE

Address Line 2:City: MANCHESTER

ZIP/Postal Code: 03103State: NH

County or Similar Division: Hillsborough

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

All inspections were completed as required by the permit. No evidence of storm water pollution was seen.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

Although some solids were noted in some of the quarterly visual samples, there was no evidence of any industrial source pollutants.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

NYCOA is in the process of reviewing the selection, design, installation and implementation of control measures to reduce the level of zinc concentration in our stormwater discharge.

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

NYCOA is continually investigating ways to reduce the level of zinc concentration in our discharge. The benchmark monitoring exceedance for zinc is ongoing at this time. The Company has conducted studies and data tracking which indicate that the elevated zinc concentrations do NOT point to characteristics of our manufacturing process. NYCOA is currently investigating factors outside of manufacturing practices, including exterior building siding, roofing, and galvanized fencing as the next step in the corrective action process.

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
